I.D. #IAD051001337
REQUEST FOR CHANGE IN STATUS

RECEIVED
84 AUG 13 AM 10 34
DEPARTMENT OF
WATER, AIR AND WASTE
MANAGEMENT

Dear Mrs. Cook:

The Eagle Signal Controls Division of Gulf & Western Manufacturing Company is presently on Interim Status as a Hazardous Waste Storage Facility. The wastes stored at the facility include:

1. Barium Chloride sales, (solid in 55 gallon drums);
2. Sodium cyanide sales, (solid in 55 gallon drums); and
3. Waste petroleum distillate solvent, (liquid in 55 gallon drums).

Interim Status was originally filed for because the wastes were stored for periods greater than 90 days. All wastes from now on will be removed from the facility by a licensed industrial waste hauler. Gulf & Western is therefore requesting that the status of the Eagle Signal Controls Division be changed from hazardous waste storage facility to small quantity generator.

We have been advised of the procedural requirements for this change in status and are submitting copies of this letter to the Iowa Department of Water, Air and Waste Management; both the main and regional offices. Please process this change in status, providing me with written acknowledgment of same. Feel free to contact me should you have any questions.
